Dear Distributor of AGF Products,

As I am sure you all have realized the world wide price of raw materials, especially the primary materials used to make bronze and brass, have continued to rise over the last 12 months and have now even exceeded the highs seen a few years ago. In addition to raw material increases we have also seen large increases in component part pricing and other operational related expenses like energy and employee benefit costs. Considering the current business environment we have delayed a price increase as long as possible but we are now in a position where we must pass through some of these increases.

We have reviewed each of our product lines separately and have adjusted their prices in accordance with the impact raw material and component price increases have affected their production costs, therefore we have not implemented a straight across the board percentage price increase; however the average increase falls between 3% and 5% above our price list from 2008.

Enclosed please find some copies of our new price list. Highlighted on page 2 and 3 of this price list is our new Model 5100 and 5200 COLLECT_{AND}DRAIN Auxiliary Drain and Condensation Collecting Assemblies for Dry Systems. We have also expanded the Model 8000 and 8011 RISERPACK preassembled risers product line to accommodate some specific requirements now found in NFPA 13R. The Model 8000 and 8011 series can now be ordered in 3 different trim configurations to meet the requirements of NFPA 13D Dwelling Code, NFPA 13R Residential Code or NFPA 13 Commercial Code in sizes 1" through 6". Please note the new AGF Item ID Numbers, utilizing either a "D" or "R" for the different variations and the different pricing for each variation. The Item ID Numbers for the Commercial Assemblies have stayed the same. Also at the end of the Price Sheet we have included our Model 6000 and 6100 CENTER_{OF}TILE fitting, please note that the prices listed are street prices, your costs will be discounted from these prices, based on volume.

This price sheet will become effective on Monday, March 7, 2011. All purchase orders received on or before Friday, March 4, 2011 will be invoiced at current prices. All orders received after March 4, 2011 will be billed at the new prices. All orders placed at the current pricing will only be accepted subject to product availability.

We regret the fact that we have to increase our pricing, it is our hope that this advanced notification will allow your customers to receive in the materials they need to complete jobs they are currently working on. We appreciate your understanding this announced price increase and as always, we sincerely value your business. Please feel free to contact me with any questions or concerns.

Best Regards,
George J. McHugh
