ISO 9001:2000 Certified Facility

CERTIFICATE

This is to certify that the Columbia Plant uses a minimum of 90% (by weight) recycled materials in the casting manufacturing processes for malleable, gray (cast), and ductile (nodular) iron products, such as threaded and grooved fittings, hangers, and flanges.

The raw ferrous scrap material—plate and structural steel, rail crop, scrap from metal stamping plants, etc.—which is purchased from established recycling suppliers must pass Columbia's inspection process, including mandatory radiation screening before it is accepted and used in the melting process.

Certified for and on behalf of Anvil International, Inc. - Columbia Plant.
