

NEW 2010 FPPI Products

Check Valve w/ Orifice for Pump Systems

Our popular, full-floating clapper design is now available in an orifice check. A 3/32" orifice provides adequate pressure drop in the sensing line without allowing unnecessary pump starts due to major pressure fluctuations in the 1/2" line.

Part No.	Description	Box Qty.
06-860-50	Swing Check Valve 1/2" with 3/32" orifice	10

GrooveFit™ Family Expands with 6" Outlet Manifold

In response to our distributors' successes with the growing GrooveFit™ family of products we are continuing to expand the program. Now joining our many grooved check valves, hose valves and smaller outlet manifolds, our 6" x 2-1/2" x 2-1/2" outlet manifold is also available with a fast, grooved connection.

Part No.	Description	Box Qty.
09-107-00	6" GRV x 2-1/2" MNPT x 2-1/2" MNPT Straight Manifold	1
