

To All General Customers:

Effective April 1, 2010 General Air Products will be implementing a 5% to 9% price increase on all of our air compressors and accessories. This increase will take effect on all orders placed on or after this date.

General Air has been able to hold pricing for 21 months, absorbing price increases during this time, but recent increases in almost all components have compelled us to pass along some of these new increases.

We will have a new price sheet out to you by March 1, 2010. If you have any questions or concerns please contact me.
