To: Our Valued Customers

Re: Metal Valve Price Increase

Raw material costs continue to increase; therefore, NIBCO announces a metal valve and actuation list price increase effective March 7, 2011.

Commercial butterfly valves will increase 7% (divide current list by .93). Fire protection butterfly valves will increase 5% (divide current list by .95). Fire protection resilient wedge (RW) gate valves will increase 8% (divide current list by .92). Some select items will be adjusted to reflect various higher or lower increases.

The following list price sheets will be affected:

- Butterfly Valves
- Fire Protection Valves
- Irrigation Valves

The new list price sheets will be available the week of February 21, 2011 via NIBCO's websites at www.nibco.com and www.nibcopartner.com. You will have the option of printing a copy of the price sheet in PDF format or downloading list prices in Excel format.

If you should have questions, please contact your local NIBCO sales or customer service representative. Thank you for your continued support of NIBCO® products.
