Subject: System Sensor Pricing

Dear Valued System Sensor Customer:

We wish to thank you for your support of System Sensor's products. At System Sensor, we are committed to providing the highest quality products at the most affordable prices.

As you know, over the last several months the industry has seen tremendous pressure on raw materials and associated component parts. Though we have been able to offset a portion of these increases through internal productivity initiatives, we must announce a price increase. For most Fire Sprinkler Monitoring products, the new prices will reflect a change of 6-8%.

New pricing will be effective on all orders placed on or after May 2, 2011. Your new price sheets will be sent out separately.

System Sensor remains committed to providing the industry with superior products, service, and value. We appreciate your business, and your continued support.

Sincerely,

Chuck Kitts  
Director of Sales  
System Sensor

Jackie Lorenty  
Manager, Product Marketing  
System Sensor
